(Handwritten signature)

The GA Technical Working Group serves as the clearing house for technology development and research on the sustainable management of fall armyworm. In particular, the GA-TWG oversees the development of the Regional IPM Package of Technology for the Sustainable Management of the Fall Armyworm. In relation to the GA-TWG, the Standards Development Division of BAFS may be consulted or requested participation in activities of the program, when needed.

This Order shall take effect immediately and shall remain in force unless revoked in writing.
